AXT-3 User Defined Home Gym

\$3195

Options:
 Leg Press \$899
 Inner / Outer \$799
 Ab / Back \$799

- Patent pending gravity latch mechanism allows you to change from leg extension to curl exercise with just one click.
- Fully adjustable outrigger and freeform style mechanical arms provide the natural feel of converging and diverging movement.
- Low pulley station with swivel arm action designed for unrestricted movement in a tight workout area.
- Turn-twist and lock add-on weights: 2.5 lbs. and 5 lbs.

Hoist V3 Select \$2295

Ratcheting seat and back pad adjustment system providing quick and easy exercise positioning to accommodate varying body sizes.

Standing leg curl allows you to exercise each side independently.

Designed to simulate freeweight exercises, the V3 press arm features a 3-dimensional exercise movement allowing you to perform flat, incline, decline presses or fly exercises.

V Ride Leg Press \$995

Hoist V4 Elite \$3195

Patented leg station allows you to perform both leg extension and leg curl exercises from the seated position

A range of motion adjuster provides multiple starting positions for both leg exercises.

Multi-function back pad provides both telescoping and tilting adjustments for enhanced upper body support during chest, shoulder and back exercises

The V4 is the ultimate press arm combining the range-of-motion adjustment of the V1 with the user-defined exercise movement of the V3 press arm. The versatile V4 press arm also includes attachable strap handles to further increase your workout choices.
